Exploring Leadership Jones & Bartlett Learning
 This is the thoroughly revised and updated second edition of the best-selling book Exploring Leadership. The book is designed to help college students understand that they are capable of being effective leaders and to guide them in developing their leadership potential. Exploring Leadership incorporates new insights and material developed in the course of the authors' work in the field. The second edition contains expanded and new chapters and also includes the relational leadership model, uses a more global context and examples that relate to a wide variety of disciplines, contains a new section which emphasizes ways to work to accomplish change, and concludes with concrete strategies for activism.
Things I Want Most Prentice Hall

This revision of ORGANIZATIONAL BEHAVIOR includes a renewed emphasis on the text's multifaceted approach, which is reflected in a new subtitle: SCIENCE, THE REAL WORLD, AND YOU. "Science" refers to roots of the discipline and the way the book is anchored in research tradition--both classic research as well as leading-edge scholarship. "The Real World" reflects current trends in organizations and takes shape as examples from all types of organizations. "You" reflects the opportunities to grow and develop both as individuals and organizations. The book helps students learn not only the concepts and theories that enhance the management of human behavior at work, but also how to practice these skills. A wealth of proven features, cases, exercises, and examples--including six new focus companies--stimulate interest and discussion; demonstrate how theories and research apply; and prompt cognitive and skill-based learning. Established organizational behavior topics are discussed, including motivation, leadership, teamwork, and communication, as are emerging issues shaping the field. The exciting theme of change clearly demonstrates how attitudes and behaviors within an organization are affected by change and the new opportunities and experiences change presents. Supporting themes focus on globalization, diversity, and ethics.

2021 Nurse's Drug Handbook CABI
 This candid and emotionally gripping memoir defines the very meaning of family, as Richard Minter shares his captivating account of his family's turbulent but redemptive first year with their emotionally-scarred foster son. When Richard and Sue Minter decided to open their home -- and their hearts -- to a foster child, they couldn't imagine the frustrations and joys, the breakthroughs and setbacks, not to mention the emotional toil, that awaited them. Here is the remarkable true story of how their lives changed forever with their decision to answer an abandoned child's wish for "The Things I Want Most."
Crafting and Executing Strategy AuthorHouse
 This new book provides comprehensive coverage of sustainable sweet cherry production including global trends, improved varieties and rootstocks, orchard establishment and management, the physiology of growth and cropping, and protecting the crop from adverse climates, pests, and diseases. Sweet cherries are a specialty crop, subject to significant production risks for growers, yet with high potential market returns due to strong consumer demand for the fruit's intensely enjoyable flavor and nutraceutical benefits.

Contemporary Nursing, Issues, Trends, & Management, 6th Edition prepares you for the rapidly evolving world of health care with a comprehensive yet focused survey of nursing topics affecting practice, as well as the issues facing today's nurse managers and tomorrow's nurse leaders. Newly revised and updated, Barbara Cherry and Susan Jacob provide the most practical and balanced preparation for the issues, trends, and management topics you will encounter in practice. Content mapped to the AACN BSN Essentials emphasizes intraprofessional teams, cultural humility and sensitivity, cultural competence, and the CLAS standards. Vignettes at the beginning of each chapter put nursing history and practice into perspective, followed by Questions to Consider While Reading This Chapter that help you reflect on the Vignettes and prepare you for the material to follow. Case studies throughout the text challenge you to apply key concepts to real-world practice. Coverage of leadership and management in nursing prepares you to function effectively in management roles. Career management strategies include advice for making the transition from student to practitioner and tips on how to pass the NCLEX-RN® examination. Key terms, learning outcomes, and chapter overviews help you study more efficiently and effectively. Helpful websites and online resources provide ways to further explore each chapter topic. Coverage of nursing education brings you up to date on a wide range of topics, from the emergence of interactive learning strategies and e-learning technology, to the effects of the nursing shortage and our aging nursing population. Updated information on paying for health care in America, the Patient Protection and Affordable Care Act, and statistics on health insurance coverage in the United States helps you understand the history and reasons behind healthcare financing reform, the costs of healthcare, and current types of managed care plans. A new section on health information technology familiarizes you with how Electronic Health Records (EHRs), point-of-care technologies, and consumer health information could potentially impact the future of health care. Updated chapter on health policy and politics explores the effect of governmental roles, structures, and actions on health care policy and how you can get involved in political advocacy at the local, state, and federal level to help shape the U.S. health care system. The latest emergency preparedness and response guidelines from the Federal Emergency Management Agency (FEMA), the Centers for Disease Control (CDC), and the World Health Organization (WHO) prepare you for responding to natural and man-made disasters.

 In the third book of his popular trilogy on creating and sustaining arts organizations, Michael Kaiser reveals the hidden engine that

powers consistent success. According to Kaiser, successful arts organizations pursue strong programmatic marketing campaigns that compel people to buy tickets, enroll in classes, and so on—in short, to participate in the organization's programs. Additionally, they create exciting activities that draw people to the organization as a whole. This institutional marketing creates a sense of enthusiasm that attracts donors, board members, and volunteers. Kaiser calls this group of external supporters the family. When this hidden engine is humming, staff, board, and audience members, artists, and donors feel confidence in the future. Resources are reinvested in more and better art, which is marketed aggressively; as a result, the "family" continues to grow, providing even more resources. This self-reinforcing cycle underlies the activities of all healthy arts organizations, and the theory behind it can be used as a diagnostic tool to reveal—and remedy—the problems of troubled ones. This book addresses each element of the cycle in the hope that more arts organizations around the globe—from orchestras, theaters, museums, opera companies, and classical and modern dance organizations to service organizations and other not-for-profit cultural institutions—will be able to sustain remarkable creativity, pay the bills, and have fun doing so!

"Necrotizing enterocolitis (NEC) was described over 30 years ago, and remains the leading cause of death in premature infants from gastrointestinal disease. It is axiomatic that necrotizing enterocolitis is both a devastatingly serious disease, and also one in which its very underpinnings remain mysterious"--

Essentials of Contemporary Management Jones & Bartlett Learning

This book is the pocket guide I wish I had when I first became a general manager of a Mitsubishi dealership in New York. Honestly, I am not the brightest star in the sky and made every mistake anyone could've possibly made. Unfortunately, I see dealer principals/general managers/general sales managers making the same mistakes today. The only difference is the time and consequences of these mistakes. I got my first GM gig in 2004. That was in the beginning days of the Internet, before millennials joined the workforce, and way before any viable disrupters entered the market space. It was a lot easier to get away with mistakes then. I don't think you could get away with making the same mistakes now. The stakes are too high. Automotive retail profit margins are tiny. According to the National Automobile Dealers Association (NADA), automotive net profit margin as of March 31, 2019 was merely 1.38 percent. As a result, every misstep makes it harder to stay in business. The car business desperately needs better leadership skills, understanding of social media, inventory management, fixed operations, and so much more. There is no educational barrier to the entry into car business, and there are only a handful of universities offering a major in car dealership general management, such as Liberty and Keiser. On top of that, only a tiny percentage of dealer principals and general managers attend the National Automobile Dealer Association University. That means that a vast majority of general managers receive training on the job, even if we took business-related classes in college. The auto business is a different animal. General information will only carry you so far. That is exactly why general managers make the same mistakes year after year. My goal is to break this vicious cycle and provide as much information as possible to ensure that automotive retail survives the disruptions we are witnessing today. We need to be ready for

the next generation of car buyers, people who are more computer savvy and not afraid to search for better deals. According to surveys, 80 percent of millennials plan to buy a vehicle in the next five years. In fact, millennials worldwide will buy about 40 percent of all vehicles in the next decade. At the same time, they spend an average of 17 hours on line before going to a dealership. Are you ready for them?

The Eight Principles of Doing Business with Collaboration in the Earth InterVarsity Press

"A classic of educational criticism proves its relevance in light of today's educational quandaries First published by McGraw-Hill in 1939, *The Saber-Tooth Curriculum* was a groundbreaking satire of the educational establishment, and its unwillingness to adapt to changing times. Throughout the decades, this witty work has not only become an educational classic, but has also remained as relevant and applicable to the key questions in education today as it was when first published. With tongue firmly in cheek, Peddiwell takes on the conflicting philosophies of education, from its imagined origins at the dawn of time to its culmination in a ritualistic, deeply entrenched social institution with rigidly prescribed norms and procedures. Developed within a fanciful framework of fictional lectures, given by fictional author Professor J. Abner Peddiwell, doyen in the History of Education at Petaluma State College, this humorous fable illustrates the progress of education and gives valuable insights into how it could continue to develop in the decades to come."--desc. of new 2004 ed., via amazon.ca.

A groundbreaking guide to making profitable business decisions Do you wonder why your value initiatives aren't providing the payoff you'd hoped for? Could it be because you've been thinking about value all wrong? According to the authors of this groundbreaking guide, there's a very good chance that you have. Using examples from leading companies worldwide, they explain why every decision a company makes either creates value or detracts from it, and why, if they hope to survive and thrive in today's increasingly competitive global marketplace, company leaders must make value-creation the centerpiece of every business decision. Authors Kaiser and Young have dubbed this approach "Blue-Line Management," (BLM), and in this entertaining, highly accessible book, they delineate BLM principles and practices and show you how to implement them in your company. Explains why the failure to properly define and assess value often makes it difficult for the people who manage businesses to effect long-term success Offers guidelines for making the satisfaction of customer needs and wants—i.e. value creation—the driver of all business activities The authors are respected academics at INSEAD, the world's largest and most respected graduate business school, with campuses in Europe, Asia and the Middle East
