Eric Partridge's brilliant magnum opus, *The Dictionary of Slang and Unconventional English*, this two-volume *New Partridge Dictionary of Slang and Unconventional English* is the definitive record of post WWII slang. Containing over 60,000 entries, this new edition of the authoritative work on slang details the slang and unconventional English of the English-speaking world since 1945, and through the first decade of the new millennium, with the same thorough, intense, and lively scholarship that characterized Partridge's own work. Unique, exciting and, at times, hilariously shocking, key features include: unprecedented coverage of World English, with equal prominence given to American and British English slang, and entries included from Australia, New Zealand, Canada, India, South Africa, Ireland, and the Caribbean emphasis on post-World War II slang and unconventional English published sources given for each entry, often including an early or significant example of the term's use in print. hundreds of thousands of citations from popular literature, newspapers, magazines, movies, and songs illustrating

usage of the headwords dating information for each headword in the tradition of Partridge, commentary on the term's origins and meaning New to this edition: A new preface noting slang trends of the last five years Over 1,000 new entries from the US, UK and Australia New terms from the language of social networking Many entries now revised to include new dating, new citations from written

sources and new glosses The New Partridge Dictionary of Slang and Unconventional English is a spectacular resource infused with humour and learning – it's rude, it's delightful, and it's a prize for anyone with a love of language. *How to Build Max-Performance Ford FE Engines* Sakha Global Books (Sakha Books) Learn all about the Thunderbirds, from the vehicles to the brothers, in

Inside this definitive companion to Gerry Anderson's television

series you will find detailed colour illustrations of craft and settings with cutaways to reveal exactly what they contain. It includes Thunderbirds, Captain Scarlet, Stingray, and Joe 90. For ages 8 +. Gerry Anderson the Comic Collection Gardners Books QF32 is the award winning bestseller from Richard de Crespigny, author of the forthcoming Fly!: Life Lessons from

the Cockpit of QF32 On 4 November 2010, a flight from Singapore to Sydney came within a knife edge of being one of the world's worst air disasters. Shortly after leaving Changi Airport, an explosion shattered Engine 2 of Qantas flight QF32 - an Airbus A380, the largest and most advanced passenger plane ever built. Hundreds of pieces of shrapnel ripped

through the wing and fuselage, creating chaos as vital flight systems and back-ups were destroyed or degraded. In other hands, the plane might have been lost with all 469 people on board, but a supremely experienced flight crew, led by Captain Richard de Crespigny, managed to land the crippled aircraft and safely disembark the passengers after hours of nerve-racking effort. Tracing Richard's life

and career up until that fateful flight, QF32 shows exactly what goes into the making of a top-level airline pilot, and the extraordinary skills and training needed to keep us safe in the air. Fascinating in its detail and vividly compelling in its narrative, QF32 is the riveting, blow-by-blow story of just what happens when things go badly wrong in the air, told by the captain himself.  Do you remember Beatlemania? Radio Caroline? Mods and Rockers? The very first miniskirts? Then the chances are you were born in the or around 1960. To the young people of

today, the 1960s seems like another age. But for those who grew up in this decade, school life, 'mod' fashions and sixties pop music are still fresh in their minds. From James Bond to Sindy dolls and playing hopscotch in the street, life was very different to how it is now. After the tough and frugal years of the fifties, the sixties was a boom period, a time of changed attitudes and improved

lifestyles. With chapters on home and school life, games and hobbies, music and fashion, alongside a selection of charming illustrations, this delightful compendium of memories will appeal to all who grew up in this lively era. Take a nostalgic look at what it was like to grow up during the sixties and recapture all aspects of life back then. PAUL FEENEY is a writer and part-time business

consultant. He has also written a local history of Highgate and A 1950s Childhood: from Tin Baths to Bread and Dripping. He lives in Surrey. "If you grew up in the Swinging Sixties, you'll love Paul Feeny's A 1960s Childhood." Reviewed in Yours Magazine, 23rdFeb '10. "The author captures the atmosphere and 'furniture' of the Sixties to perfection, even recreating a typical family

Christmas of the time. Whether you were a child or an adult in that most eventful decade, this excellent book, with charming black and white illustrations, will throw up lots of talking points." Space:1999 just some of the TV series produced by Gerry and Sylvia Anderson that have thrilled generations of people worldwide from the 1960s right into the 21st Century. As the new series Thunderbirds Are Go! updates the exploits of International Rescue for a new era, Ian Fryer, film historian and editor of Gerry Anderson's official appreciation society magazine, brings an in-

depth look into the making of the iconic television shows that inspired it. The background to the making of the Supermarionation series, and the live action science fiction classics that followed, is brought to life along with the turbulent times for British film making in which they were made. A fascinating read for fans of the Anderson puppet and live action series and for

anyone interested in film and television history." *Project Management* "O'Reilly Media, Inc." The best all-color guide to over 5,000 collectibles. *Thunderbirds Agents' Technical Manual - 50th Anniversary Edition* Fonthill Media Since the dawn of children's television in the 1950s, toy companies have been keen to capitalise on the success of these programmes.

Toy historian and collector Anthony A. McGoldrick here charts the history of the most successful TV toys from Muffin the Mule in the 1950s to Star Trek: The Next Generation in the 1980s. The colourful illustrations - whether of Daleks, iconic cars, action figures or spaceships - evoke the excitement of the programmes and also of playing with the toys that allowed children to recreate

them. Whether you grew up in the days of Andy Pandy, The Saint, Kojak or Knight Rider, this book offers a nostalgic look at some of the most appealing toys of the late twentieth century. Phoenix Expansion Project DK Publishing (Dorling Kindersley) Airfix acquired the first plastic injection moulding machine in the U.K. in the mid 1940's and was soon manufacturing

vast numbers of plastic toys. By 1981, when Airfix's financial woes led to takeover and the end of all production save for plastic model kits, it had made a wide variety of toys, games, arts, crafts, building sets, racing sets, model trains and even Meccano and Dinky toys. Profusely illustrated with over three hundred photographs, Forty Years of Airfix Toys gives the full history of the Airfix toy

range including year-by-year listings of all the toys sold by Airfix; logs and packaging; Airfix's magazines and a full listing of Airfix pattern numbers. It is a comprehensive guide to the history of the toys produced by the iconic brand Airfix. *Schroeder's Collectible Toys* Egmont Books Reviews of the two-volume New Partridge Dictionary of Slang and Unconventional English,
