Hearings Mark Twain Media

The purpose of this study is to examine the impacts of increased participation by 9th grade students in the AP Human Geography (APHG) course on APHG teaching, APHG learning, and the recruitment for the discipline of

geography. In the first part of the study, APHG exam scores were collected from the Texas Education Agency (TEA) and aggregated by grade level to determine whether the scores of 9th grade students were significantly different from those of students in 10-12th grades. Teacher focus groups, administrators' interviews, and students' interviews were conducted to explore the challenges in teaching and learning the APHG course in the 9th grade. In the second part of the study, an on-line

survey was conducted to students enrolled at Texas State University. The survey results were used to examine the impact of students taking the APHG course at different grade levels in high school on their choice of major/minor, interest level in geography and taking geography courses, and likelihood of pursuing a career in geography. Follow-up interviews were conducted to survey participants to explain the survey results. The results of the study demonstrated that 9th grade

students scored lower on the APHG exam than students in other grades. The reasons behind the low scores of 9th grade students on the APHG exam cited were lack of writing skills, lack of knowledge of the world, lack of maturity, large vocabulary in the course, and lack of study skills. The on-line survey demonstrated that students who took the APHG course in the 9th grade were less likely to major/minor in geography, had a lower level of interest in geography and taking geography courses, and were less likely to pursue a career in geography than students who took the APHG course in 10-12th grades. The results of this study provide valuable information on the appropriate grade level to place the APHG course in the high school curriculum for students, teachers, parents, high school counselors and administrators, university geography instructors, geography organizations such as the National Council on Geographic Education (NCGE), and geography departments.

Unit 9 of 109th Grade Social StudiesNinth

grade students study world geography and the continents of the world. They study maps and globes, and learn to coordinate locations on a grid. Students study landforms and topographical maps. Ninth grade students study South America, Asia, Africa, The Middle East, Australia, Antarctica, Europe, Canada, and the United States. They study geographical features of these countries, as well as the economies and people of the countries. Welcome to Starline Press, an Independent Learning Curriculum 3rd - 12th Grade: Math, English, Social Studies and Science High School Electives: Art, Home Economics, Personal Finance, Automotive Technology and many others See a full curriculum catalog at www.starlinepress.com Discounts from 10% - 40 % for public and private schools For a full catalog of all of our courses go to www.starlinepress.com. On our website you will find our catalog, including the course description, alignment with standards and the scope and sequence. Starline Press is a character-based, state standards aligned, individualized and independent learning curriculum. Perfect for any independent

learning environment, from Homeschool to Adult High School completion and Home and Hospital instruction, it is designed to allow each student to progress at his or her own pace, which may vary from subject to subject. Students find the instruction embedded in the material, so that the teachers' voice is heard within the text. Both objective and subjective assessment methods are used to ensure mastery of the material. Challenging activities are included in each unit to help students to acquire critical thinking skillsets. Each complete Starline Press Curriculum Course contains from 5-12 individual units, from one semester to one years' instruction. The Starline Press core curriculum course list includes Math, English, Social Studies and Science for 3rd through 12th grades. The Starline Press High School Elective curriculum course list includes; Physical Education, Personal Finance, Spanish, and Automotive Technology, Home Economics, Art, Music and many others. Each Unit (24 to 60 pages) is about 3 weeks work for a student and comes with a test inserted into the back for easy removal. The separately purchased Score Key comes with the Test

Key inserted into the back of it. All units of a particular course must be completed to meet all of the objectives of that course. Starline's 3rd - 8th grade curriculum offers 12 units per year. The 9th - 12th grade curriculum offers 5 units per semester and 10 units per year. Designed with independent learning and Homeschool in mind, Starline is self contained and includes lists of any additional resources needed to complete the units. Starline is a system of learning that is designed to be used independently, but can also be used as remediation or enrichment, special education individual ability and paced material or homework. Trail Guide to World Geography

Courier Corporation

A "week one, day one" kind of teacher's manual with daily geography drills and numerous weekly assignment choices that include: mapping activities, atlas usage, research, notebooking and culture. Daily drills at 3 different levels for versatility and

multi-year usage. Students learn to recognize important characteristics and traits of each continent, read and create maps, identify key geographical terms and more. Finish up the year by reading *Around the World in 80 Days*, by Jules Verne. This course lays a solid foundation of world geography for students 2nd grade and up.

Atlas of World Geography Geography Matters

Promotes critical thinking with first-hand accounts and documents, emphasizes the big picture focusing on key concepts, themes and patterns of interaction allowing students to connect events and ideas of the past and see global connections, and supports all learners. Teachers' edition uses traditional and alternative teaching strategies, annotations, activities and technology tips. *World Geography 903* Teacher Created Resources

The student edition will take the students around the world, starting with physical geography, the earth's climate, and the people of the world. The first four units progress from North and South America and then on to Europe and Russia. Unit

five will cover Africa and then units six and seven will cover Asia. The book will conclude in unit eight with Oceania and Antarctica. - Publisher.

World Cultures and Geography

This resource book is designed to assist teachers in implementing California's history-social science framework at the 10th grade level. The models support implementation at the local level and may be used to plan topics and select resources for professional development and preservice education. This document provides a link between the framework's course descriptions and teachers' lesson plans by suggesting substantive resources and instructional strategies to be used in conjunction with textbooks and supplementary materials. The resource book is divided into eight units: (1) "Unresolved Problems of the Modern World"; (2) "Connecting with Past Learnings: The Rise of Democratic Ideas"; (3) "The Industrial Revolution"; (4) "The Rise of Imperialism and Colonialism: A Case Study of India"; (5) "World War I and

Its Consequences"; (6) "Totalitarianism in the Modern World: Nazi Germany and Stalinist Russia"; (7) "World War II: Its Causes and Consequences"; and (8) "Nationalism in the Contemporary World." Each unit contains references. (EH)
World Geography 901

The purpose of this project is to create place-based curriculum for 9th grade geography. The objectives of this project are: 1. To make connections between Utah state standards in geography and students' experiences by incorporating cultural backgrounds, the landscape, and community partners into the place based curriculum. 2. To provide a working curriculum example for new and practicing teachers to implement using the new World Geography Standards (2017) set by the Utah State Board of Education.
