BOOK SHORTLISTED FOR THE STANFORD
DOLMAN TRAVEL BOOK OF THE YEAR
AWARD 'Monisha Rajesh has chosen one
of the best ways of seeing the world.
Never too fast, never too slow, her

journey does what trains do best. Getting to the heart of things. Prepare for a very fine ride' Michael Palin From the cloud-skimming heights of Tibet's Qinghai railway to silk-sheeted splendour on the Venice Simplon-Orient-Express, *Around the World in 80 Trains* is a celebration of the glory of train travel and a witty and irreverent look at the world. Packing up her rucksack - and her fiancé, Jem - Monisha Rajesh embarks on an unforgettable adventure that takes her from London's St Pancras station to the vast expanses of Russia and Mongolia, North Korea, Canada, Kazakhstan, and beyond. The journey is one of constant movement and mayhem, as the pair strike up friendships and swap stories with the hilarious, irksome and ultimately endearing travellers they

meet on board, all while taking in some of the earth's most breathtaking views. *Rheinland-Pfälzische Bibliographie* White Lion Publishing

Think! Different is a different kind of self-help book: the author, Andreas Boskugel, is well-known in Europe and appreciated for his clear and direct manner. Boskugel has taken the law of attraction to its systematic and logical conclusion! This book is completely free of otherwise typical references to moral or religious "standards" because the law of attraction - like all natural laws - isn't based on morality or religion.

Consequently the author has a very different take than do others on success; for example, he doesn't idolize hard work, honesty and gratitude ad absurdum, for these are only religious

and cultural based opinions and actually contradict the law of attraction. The author also forgoes otherwise typical teachings about what is right or wrong; after all, what is "right" is individually defined. Feigned pity or morality sermons are also not included in this work. This work is for those who love the integrity of the law of attraction and prefer clarity over political correctness. And it's for those who really want to get somewhere in life and who therefore question existing opinions. It's for people who are able to think on their own instead of going with the flow. For many, it was not until reading this book that they finally understood the law of attraction, for the topics in this book are more logically organized than in other popular works, and insights are offered

that can dramatically improve the lives of readers. Completely new insights about the existing laws of life can help readers become invincible masters of their own destiny. Keywords: Law of Attraction, Self-Help, Success, Wealth, Dream, Wish Fulfillment, Love, Relationship, Money

Taking a page from Jules Verne's classic tale, Monisha Rajesh embarked on an adventure around India in eighty trains. Indian trains carry over twenty million passengers daily, plowing through cities, crawling past villages, climbing up mountains, and skimming along coasts.

Monisha hopes that her journeys across India will lift the veil on a country that had become a stranger to her.

Set in the Warring States period, Jiang Li, Warrior Woman of Yueh tells the story of one of the epic battles of Ancient China between the enemy states of Yueh and Wu. Marked by the magic of White Tiger Mother and trained to use the staff by the great mountain ape, Grandfather Wang, Jiang Li grows into a beautiful woman, loved by all in Yueh who meet her. Faced with the choice of becoming concubine to the Prince whom she loves, or a warrior and savior of Yueh, she forfeits love of a man for love of her country. While Jiang Li trains to save the State of Yueh, another woman warrior,

Brother Rat, trains to save her State of Wu. The two women meet in dreams, and by the time they meet in life, they have become friends who must fight to the death.

"This book examines chronologically the history, sources, character, style, and performance choices within each of the Haydn Masses in careful detail. All this is set in a framework of Haydn's involvement with church music over his whole life span, and, in the context of his childhood as a singer, his career as Kapellmeister to the Princes Esterhazy, and his international prestige at the turn of the nineteenth century. Special focus is given to his performance practices in the churches in which he performed

these Masses, his evolving style of orchestration, and his crucial, engaging preferences in rhythmic motion and tempi."--From publisher description.

History is everywhere, and is never as complete as when it can be accessed on a part of history itself. The locomotive is one of the great steps in progress of civilisation that undoubtedly connects us to land and history that was shaped by the machine itself. Although a basic form of railway, or rutway, did exist in Ancient Greek and Roman times – notably the ship trackway between Diolkos and the Isthmus of Corinth around 600 BC – it would take several thousand years before the first fare-paying passenger service was launched in the early

nineteenth century. Some two hundred years on, it is possible to travel by train to some of the world's most remote and remarkable destinations, and track the many wonderful legacies of the Earth's extensive history – man-made and otherwise. From prehistoric rock formations to skyscraper cities, slow steam engines to high-speed bullet trains, let *A History of the World in 500 Railway Journeys* be your guide. Through its beautifully illustrated pages, and 500 awe-inspiring railway journeys, you can chart your own transcontinental itinerary through time. Chug through canyons, steam past ancient monuments, speed through cities, luxuriate in the railcars of presidents and queens, or make express connections between key historical moments or epic eras, *A History of the*

World in 500 Railway Journeys has it all. A must-read for travellers, railfans and history buffs alike, offering inspiration and information in equal measure.
