Making Master Guitars is a craftsman's handbook about the exciting and challenging pursuit of making classical guitars--a craft that the author reveals to be surprisingly accessible by following his instructions. The book is unique in that it includes nine separate detailed plans of instruments constructed by internationally famous guitar-makers. The author has had the rare opportunity of examining these instruments in detail, and has made many replicas of each one. It is presented in three parts: "The Master Makers and Their Guitars," "Workshop, Tools, and Materials," and "Guitar Construction--The Spanish Method."

The Christopher Parkening Guitar Method - Volume 1 (Music Instruction) Mel Bay Publications

Here in a single volume is the original guitar method of Mateo Carcassi (1792-1853) translated to ENGLISH and SPANISH and published with his famous 25 Studies. Although regarded as moderately archaic in terms of modern guitar technique, Carcassi's time-proven method is second to none in its presentation of a graded learning system featuring scales, exercises, and engaging compositions in various keys. Written in standard notation only.
