JOHNSON WISE

Wipe Clean Investigating Living Things 7-8 Usborne Pub Limited

Despite their name, Wisconsin Fast Plants (members of the cabbage and mustard family) are used by teachers all over the United States -- because they are ideally suited to short semesters, youthful impatience, and small spaces. This spiral-bound lab book demonstrates all aspects of plant growth and development, while teaching scientific investigation. Activities focus on points in the plant's life cycle, variation and inheritance concepts, and environmental factors. A Science Exploration Flowchart in each activity stresses important process skills.

Pond Life to Spot

Usborne Books
Explores objects and organisms that can be viewed with a microscope and discusses various kinds of microscopes and microscopy techniques.

Grassland Wildlife

Usborne
Take a tour through a beautiful garden centre in this detailed sticker book. Discover everything from outdoor plants, a flower

shop, exotic indoor plants, garden statues and furniture to garden tools and clothing for gardeners. There's also an outdoor cafe to visit and a children's play area with swings, slides and tree houses. Contains stickers of a huge range of trees, shrubs, plants, pots, statues, fountains and seats, and other things found in a large garden centre. Shows a garden and night-time garden. Beautiful full-colour illustrations which the reader can explore.

Children's Encyclopedia

Heinemann-Raintree Library
"Simple-easy-to-read text and lively, detailed illustrations introduce the basic concepts of geography to young readers"--Page 2 of cover.

Exploring with Wisconsin Fast Plants

Crabtree Classics
Introduces the various types of animals who live in the world's mountainous zones, and shows how they do similar things in different parts of the world where conditions are similar.
Animal World Usborne Mini Books
This edition provides an extensive overview of all aspects of world geography. It includes an

atlas with 60 pages of maps and links to Web sites and downloadable photos.

Key Skills Wipe-Clean How Do Plants Grow? 5-6

Usborne Pub Limited
The Usborne Illustrated Encyclopedia of the Natural World is packed with fascinating information about the plants and animals of our world, and the environment in which we live. Arranged thematically, the book contains information on more than 600 species of plants and animals. It introduces a variety of plants, animals, and other forms of life, discusses their life cycles and most notable characteristics, and describes different ecosystems and the creatures that live in them.

First Encyclopedia of Seas & Oceans Usborne Books

A handy mini spotters' guide to animals and plants found near water, with colourful illustrations and stickers. Ideal for days out near ponds, rivers and canals, this book helps identify 60 different plants and animals that live in and around water, with a detailed illustration and interesting facts for each one. The pond life is grouped by type, with

pages for mammals, birds, amphibians, insects and plants. Children can keep track of the pond life they've spotted by adding the stickers to the chart at the back of the book.

Charming illustrations will spark the interest of young nature spotters.

Look Inside Nature

Usborne

Learn more about familiar animals, as well as discovering some fascinating new ones.

Earth and Space

Usborne

A fun sticker book packed full of colourful nature scenes. Discover the amazing animals and plants that live in gardens, forests, jungles, oceans and wild places in this colourful sticker book. There are over 180 stickers of animals, plants and bugs to add to the scenes, from caribou in the Arctic to clownfish in a coral reef. Ideal for learning about the natural world and for developing manual dexterity.

Grassland Wildlife Paw Prints

This easy-to-use book provides an enjoyable way for children to improve their understanding of science. Children will learn how plants grow, they will get an understanding of simple biology. Durable,

wipe-clean pages for endless practise.

My First Science Book

Usborne Books

The world of nature is presented to children in this colorful encyclopedia.

Science with Plants E.D.C. Publishing

The Usborne Children's Encyclopedia First Encyclopedias

"This charming book is packed with ideas for plants that anyone can grow, even without a garden. Just follow the simple step-by-step instructions to grow sunflowers, strawberries, flowering bulbs, salad leaves, bee-friendly flowers and much, much more ..."--Page [4] cover.

The Usborne Living World Encyclopedia Doll's House Sticker Book

Provides illustrations and information about animals and their life cycles.

Garden Centre Sticker Book Usborne Pub Limited

This lively book is packed with exciting science activities which encourage children to explore the intriguing nature of plants. Readers can find out how to change the color of a leaf, how to tell the age of a tree and why a seedling always grows the right way up. All the experiments and tricks are safe to do, using only ordinary household equipment. Usborne Science Activities is an innovative series which responds to the growing emphasis on scientific exploration for young children. The text and illustrations are simple and clear so children can enjoy using the books by themselves. Further notes give fuller scientific explanations for adults who wish to work with their children.

The Usborne Internet-linked Encyclopedia of World Geography with Complete World Atlas

Kendall Hunt

This stylish, highly illustrated, interactive book is perfect for sharing with little children, and introduces nature and science using a friendly lift-the-flap format. Text is kept to a mimimum. A brilliant introduction to one of the fundamental themes of biology, perfect

for curious young minds. Part of a brand new series, parallel in reading age to the Look Inside books. It is becoming increasingly important for children to learn about science from a very young age, and this series introduces one of the cornerstones of biology in a friendly, simple and accessible manner.

The Usborne First Encyclopedia of Our World First Sticker Books

An inspiring book that explores the wonders of nature, with gorgeous illustrations and ingenious flaps. Look up in the trees, behind the reeds or under the ground to see what's living there, and discover how plants grow and make seeds. Full of surprises and beautifully designed flaps to keep enquiring minds entertained. Over 50 flaps of different sizes and

shapes to open and one big gatefold. Young readers can discover amazing facts about birds, insects, mammals and reptiles, how they hunt, fight and build homes, where they live and how they care for their young.

The Usborne Internet-linked Library of Science Edc Pub

An introduction to the microscope with colored illustrations, projects, and activities.
