Divorce Agreements Simplified NOLO

This is one of the few books in the field dealing with gender issues in divorce in a research context. Women and Divorce/Men and Divorce presents the most recent research available in the area of gender issues as related to divorce and personal adjustment to divorce. Not intended to be comprehensive of the broad field of gender differences in divorce, this important book is representative of current trends and issues in this newly emerging area of research. Using a family studies, family theory context, the chapter authors, representing a wide spectrum of backgrounds and from diverse training institutions in this country and abroad, discuss clearly the concerns of men and women presently going through the divorce process. Important topics covered in this timely book include: gender differences in divorce adjustment gender differences in adjustment to stepparenting gender factors related to support gender issues related to child rearing practices after divorce cultural factors that relate to gender differences in adjustment to divorce Graduate and post-graduate level readers with research and clinical applications interest will find this the most helpful and useful book in the field. Family therapists, counselors who work with divorce issues, and social workers and psychologists in the family and divorce field will also find it a practical book.

Mending Broken Families LexisNexis

Many books deal with divorce and its aftermath -- some deal with the impact of divorce on children and families, others with the legal or sociological aspects of divorce, and a few focus on divorced mothers and fathers. Most of these books are characterized by their practical orientation toward the issues and problems posed by divorce. None of these, however, have attempted to offer an integrated view of the massive amount of theoretical and research literature on divorced adults and their children. In addition, none present a comprehensive view of divorce as a psychological process within its larger social context. Filling that void, this book: * offers a comprehensive view of divorce as a social, interpersonal and psychological phenomenon, * reviews the theory and research on divorce focusing on the major protagonists of the divorce drama: the mother, the father and the children, and * introduces a social-psychological theory of divorce process.

Steg-O-Normous (The Oodlethunks, Book 2) NOLO

You're no idiot, of course. You know how to push a toddler on a swing, the recipe for the best gooey chocolate chip cookies, and even how to get teens to confide in you. Your own kids think you're hip, too (although they'd never admit to it). But when it comes to figuring out how not to come across as the wicked stepparent, you feel like you need a magical potion. Don't reach for the garlic yet! The Complete Idiot's Guide® to Stepparenting gives you sanity-saving advice for dealing with the stepfamily, getting to know your stepchildren, and feeling confident in your role. In this Complete Idiot's Guide® you get: --Tips for dealing with the dreaded "first meeting." --The top 10 complaints of stepmoms and stepdads—and how to deal with

them. --Disciplining do's and don'ts. --Practical suggestions for dealing with the Ex. --Expert advice on making time for romance!

This valuable guide contains everything necessary to make the preparation of a divorce settlement agreement as painless as possible. Includes questionnaires, instructions and forms.

How to File for Divorce in Georgia Lexington Books

This volume contains detailed information concerning the law on parental responsibilities in twenty-two European jurisdictions. The expert members of the CEFL have drafted national reports on the basis of a detailed questionnaire. These national reports, together with the relevant legal provisions, are available on CEFL's web site (www.law.uu.nl/priv/cefl). This book integrates all the given answers in order to provide an overview and a straightforward simultaneous comparison of the different solutions chosen within the national systems. On the basis of this reliable and comprehensive comparative material the CEFL will be able to draft Principles of European Family Law regarding Parental Responsibilities.

Synopses of Sole and Joint Custody Studies Lulu Press, Inc

Dramatic societal changes have reshaped America's families. Young adults have delayed marriage, and cohabitation before marriage has become commonplace. One in three women giving birth is unmarried, and the proportion of children under 18 living in single-parent families rose from 23 to 31 percent between 1980 and 2000, reflecting increased rates of both nonmarital childbearing and divorce. This authoritative volume offers a blueprint for addressing some of the most important measurement issues in family research, and it points out potential pitfalls for researchers and students who may not be familiar with data quality issues. The Handbook of Measurement Issues in Family Research will appeal to scholars in the departments of psychology, sociology, and population studies, as well as researchers working in governmental agencies.

Child Custody Psychology Press

Twenty years ago, joint custody was considered a questionable parenting arrangement when a marriage dissolved. Now, with shared responsibility by both parents having become a widely accepted alternative, the debate has shifted toward examining what circumstances make it workable and the extent to which responsibility should be shared. The first edition of JOINT CUSTODY AND SHARED PARENTING, published in 1984, set the agenda for law reform and research on the effects of joint custody. The initial volume reported on preliminary data from the small research samples then available and surveyed existing law. Benefiting from the studies that have been conducted since then and from new legal developments, this second edition--completely revised and updated to encompass the wealth of new research, literature, and law--represents the collective knowledge of child developmental experts, therapists, mediators, researchers, economists, and lawyers. Part I provides an overview of the history of child custody and considerations for and against. Part II, focusing on the factors that influence the choice of joint custody, discusses when it is most likely to succeed, obstacles that can impede its acceptance, and how a workable parenting plan can be structured. Also examined are related concerns such as female dependency, inequality, and economic considerations. Part III reports the results of research on the effects of joint custody for both children and their parents. Chapters examine findings on co-parenting two years after divorce, compare joint custody with maternal and paternal sole custody arrangements, and discuss the effects of custody arrangements on preschool children, child support payments, and ongoing post-divorce conflict. In Part IV, chapters explore trends in the law, judicial preference for one type of child arrangement over another, and the effect of joint custody on Aid For Dependent Children eligibility. Also included is discussion of California's joint-custody statute and Canada's legal perspective. The book concludes with two helpful appendices: a state-by-state chart of all statutory enactments and key cases on joint custody and shared parenting; and a sample joint-custody agreement with alternative provisions to suit different circumstances. There is also an extensive bibliography. Shedding light in an accessible format on the myriad issues, questions, law, and research findings that surround the topic today, JOINT CUSTODY AND SHARED PARENTING is a timely, invaluable resource for professionals who help parents make decisions about child-care arrangements when a marriage ends.

Child Custody and Visitation Disputes in Sweden and the United States Routledge

Divorce is a difficult passage, but there are practical things any couple can do, individually or together, to make the transition as painless as possible. Every divorcing couple needs the guidance in this book because, without it, the process will not go smoothly. Author Ed Sherman, an attorney with 35 years of experience and over 45,000 successful cases, shows how most divorces fit one of five profiles. He helps readers discover their profile then leads them through the process, step by step, of overcoming what can otherwise turn into major mental and monetary roadblocks. Through its communication, organizational, and negotiation tools, Make Any Divorce Better! not only saves readers money, but puts them - not lawyers or the courts - in charge of the process, allowing them to get it done faster, with a minimum of emotional and financial expense, and move on with their lives.

Simplified Divorce Kit John Wiley & Sons

Custody and Support: Get the Answers You Need When you're getting divorced, you can make a tough time easier for yourself and your children if you work with the other parent to agree on a custody plan and child support. If you can't resolve these issues, you'll have to head to court and ask a judge to decide for you. Either way, Nolo's Essential Guide to Child Custody & Support can help. You'll learn: how negotiation and mediation can keep costs down and improve future dealings with your ex where to find your state's child support guidelines how judges make custody decisions how to enforce and change custody and support orders how court trials work how Covid-19 is affecting custody arrangements and family court hearings, and when you need a lawyer and how to work with one. You'll also find specifics about each state's laws, including what factors courts consider when they rule on custody arrangements and what happens when one parent wants to move away with the children.

Vicki Lansky's Divorce Book for Parents SAGE

A fair and realistic custody agreement protects children's interests when parents split up. But reaching a parenting agreement is often easier said than done, especially when emotions run high. That's where Building a Parenting Agreement That Works can help. This practical, step-by-step guide will show parents exactly how to create a parenting plan that works for everyone. Author Mimi Lyster Zimmelman, a professional mediator, identifies dozens of issues separated parents typically face and systematically presents options to resolve them. Take advantage of practical solutions and sample language to create a workable agreement or renegotiate an existing agreement as your kids grow. The book walks you through all of the

parenting issues and challenges you must consider, including: living arrangements and visitation money issues health care education religion new partners and surnames holidays, travel, and grandparent visits different approaches to discipline and public health measures alcohol and drug use, and working with professionals. Avoid child custody battles—build a win-win custody agreement that puts your children's needs first and saves you time, money, and grief.

Women and Divorce/men and Divorce Nolo

Questions about how children fare in divided families have become as perplexing and urgent as they are common. In this landmark work on custody arrangements, the developmental psychologist Eleanor Maccoby and the legal scholar Robert Mnookin consider these questions and their ramifications for society. The first book to examine the social and legal realities of how divorcing parents make arrangements for their children, *Dividing the Child* is based on a large, representative study of families from a wide range of socioeconomic levels. Maccoby and Mnookin followed a group of more than one thousand families for three years after the parents filed for divorce. Their findings show how different divorce agreements are reached, from uncontested dealings to formal judicial rulings, and how various custody arrangements fare as time passes and family circumstances change. Numerous examples of joint custody and father custody are considered in this account, along with the mother-custody families more commonly studied; and in most cases the point of view of both parents is presented. Among families in which children spend time in both parental households, the authors identify three different patterns of co-parenting: cooperative, conflicted, and disengaged. They find that although divorcing parents seldom engage in formal legal disputes, they are generally unable to cooperate effectively in raising their children. Full of interesting findings with far-reaching implications, this book will be invaluable to the lawyers, judges, social workers, and parents who, more and more often, must make wise and informed decisions concerning the welfare and care of children of divorce.

Impact of Divorce, Single Parenting and Stepparenting on Children Dorrance Publishing

Much more than a theoretical approach to divorce law, Family Law in Alabama is full of the kind of information and guidance that could only come from day-to-day experience. The expert authors assemble a wide variety of tools for use in everyday family practice - statutes, case law, forms, and guidance on every aspect of handling the case. A guide containing everything you need to know about divorce in Georgia, written in layman's terms.

A Treatise on the Law of Contracts Intersentia nv

What are the social and cultural features that have the most impact on the interpretation of the legal standard "best interest of the child"? One method for answering this question is through a comparison of two societies both of which apply the same legal standard to the same types of contested child custody and visitation cases. This book compares trial court documents of contested child custody and visitation disputes, between two parents, in the United States and Sweden. Case documents come from trial courts in Sweden and the United States.

Child Custody: The Good, the Bad, and the Ugly Cengage Learning

LAW It is difficult to imagine a situation more fraught with potential conflict than that of divorcing parents discussing custody of their children.

Professional mediator Lyster claims that despite the inflexibility that often accompanies family breakups, parents can put together custody agreements that are better than those mandated by a court. She aims here to provide guidance for constructing a parenting agreement that favors the child's needs while defusing the tension that can accompany negotiations. Lyster covers everything from medical care to allowing underage marriage to dealing with the parents' new partners. Compromises and creative solutions are suggested; Lyster also offers techniques for keeping the negotiations civil and productive. There is an interesting discussion on parenting arrangements in all kinds of nontraditional families, and important distinctions among states in regard to custody are noted. Legal and family counseling professionals will shiver at Lyster's assertion that the book can be used without professional intervention, but she is careful to provide advice on finding lawyers, custody evaluators, and counselors. A list of support organizations and the clear, pragmatic approach typical of the publisher's books make this a recommended choice for all popular law collections. Joan

Pedzich, Harris, Beach & Wilcox, Rochester, N.Y.--LJ 06/15/1995.

Building a Parenting Agreement That Works Psychology Press

A BFF's Guide to Divorce Written by Victoria Vestuto Illustrated by Ed Tripp If you, or someone you know, is about to go or is going through the divorce process, read this book. Divorce is a journey, and typically not an easy one. There are so many variables and decisions throughout and it can leave people exhausted and emotionally drained. You can choose to go it alone, but it is best to have a close friend, a confidant, a BFF, by your side. Inside the book, some of those variables and decisions are explained. If you "go it alone," this book is still very helpful. But it also explains the role a BFF can play. A BFF can help make the journey more palatable by providing emotional and tactical support. If you are the one getting the divorce, the author highly encourages you to read this first, but then pass it on to your BFF. Or, if you know someone getting a divorce, and you really want to help, share this book with them. As Victoria Vestuto journeyed with several friends down this road, they often found themselves confused and frustrated. Terms were thrown around by lawyers that they had no idea what they meant. Court dates were mandated and they often did not know why. This book was written to help someone have a smoother experience.
