Learn the story of TIME PERSON OF THE YEAR Greta Thunberg, the sixteen-year-old climate activist who has sparked a worldwide

student movement and is demanding action from world leaders who refuse to address climate change—from acclaimed picture book creator Jeanette Winter. I don't want you to be hopeful. I want you to panic...I want you to act as if our house is on fire. Because it is. When she was fifteen years old, Greta Thunberg's teacher explained to her class that our climate is changing—the earth is getting warmer, the polar ice caps are melting, and life on earth is threatened. Greta was devastated. What could she do? If the grown-ups weren't doing enough to save the planet, Greta would have to demand change herself. So she went on strike, skipping school every Friday to sit outside of the Swedish Parliament building with a sign that read "School Strike for Climate." At first, Greta was the only one. But gradually, more and more students joined her, until her lone protest had sparked a worldwide

student movement for action on climate change. Now, a year later, Greta is speaking to audiences of world leaders at important meetings like the United Nations Climate Conference and the World Economic Forum. She is leading the conversation on climate change and sparking worldwide conversation on how to save our planet. Greta is showing everyone that even the smallest person can make a big difference, and this picture book informs and inspires young readers who are beginning to learn about the world around them.

Der Fremd- und Zweitsprachenunterricht ist seit langem von einer eklektischen methodischen Vielfalt geprägt, deren theoretische Fundierung oft unklar oder gar zweifelhaft ist. Viele Verfahren sind vor allem durch wohlklingende Begriffe, Medieneuphorie und zyklische Scheininnovationen geprägt. In diesem Wirrwarr will der Band Orientierung bieten, die in theoretischen Konzepten verankert ist, dabei aber gleichzeitig auf eine reflektierte Unterrichtspraxis abzielt. Die Kapitel dieses

Bandes behandeln alle einschlägigen Themen des Sprachenlehrens, der modernen Didaktik und Methodik. Zwei Kapitel beschäftigen sich zudem vertieft mit zwei zentralen Themen der modernen Sprachdidaktik: der Erstellung von Lern- und Testaufgaben und der mündlichen und schriftlichen Fehlerkorrektur. In Verbindung mit den anderen Bänden dieser Reihe bilden die Kapitel dieses Bandes eine vollständige Grundlage für die systematische Planung und Durchführung von Sprachenunterricht in allen denkbaren Formaten.

THE SUNDAY TIMES TOP TEN BESTSELLER SHORTLISTED FOR THE PENDERYIN MUSIC BOOK PRIZE 'Tender, wise and funny' Sunday Express 'Beautifully observed, deadly funny' Max Porter Before becoming an acclaimed musician and writer, Tracey Thorn was a typical teenager: bored and cynical, despairing of her aspirational parents. Her only comfort came from house parties and the female pop icons who hinted at a new kind of living. Returning to the scene of her childhood, Thorn takes us beyond the bus shelters, the pub car parks and the weekly discos, to the parents who wanted so much for their children and the children who wanted none of it. With great wit and insight, Thorn reconsiders the Green Belt post-war dream so many artists have mocked, and yet so many artists have come from.

How architecture and urbanism can help to care for and repair a broken planet: essays and illustrated case studies. Today, architecture and urbanism are capital-centric, speculation-driven, and investment-dominated. Many cannot afford housing.

Austerity measures have taken a disastrous toll on public infrastructures. The climate crisis has rendered the planet vulnerable, even uninhabitable. This book offers an alternative vision in architecture and urbanism that focuses on caring for a broken planet. Rooted in a radical care perspective that always starts from the given, in the midst of things, this edited collection of essays and illustrated case studies documents ideas and practices from an extraordinarily diverse group of contributors. Focusing on the three crisis areas of economy, ecology, and labor, the book describes projects including village reconstruction in China; irrigation in Spain; community land trust in Puerto Rico; revitalization of modernist public housing in France; new alliances in informal settlements in Nairobi; and the redevelopment of traditional building methods in flood areas in Pakistan. Essays consider such topics as ethical architecture, land policy, creative ecologies, diverse economies, caring communities, and the exploitation of labor. Taken together, these case studies and essays provide evidence that architecture and urbanism have the capacity to make the planet livable, again. Essays by Mauro Baracco, Sara Brolund de Carvalho, Jane Da Mosto, Angelika Fitz, H el ene Frichot, Katherine Gibson, Mauro Gil-Fournier Esquerre, Valeria Graziano, Gabu Heindl, Elke Krasny, Lisa Law, Ligia Nobre, Meike Schalk, Linda Tegg, Ana Carolina Tonetti, Kim Trogal, Joan C. There's something new under the sun Plants live secret, unseen lives – hidden in their magical world and on their timescale. From the richest jungles to the harshest deserts, from the snowiest alpine forest to the remotest steaming swamp, Green Planet travels from one great habitat to the next, showing us that plants are as aggressive, competitive and dramatic as the animals on our planet. You will discover agents of death, who ruthlessly engulf their host plant, but also those that form deep and complex relationships with other species, such as the desert cacti who use nectar-loving bats to pollinate. Although plants are undoubtedly the stars of the show, a fascinating new light will be shed on the animals that interact with them. Using the latest technologies and showcasing over two decades of new discoveries, Green Planet reveals the strange and wonderful life of plants like never before – a life full of remarkable behaviour, emotional stories and surprising heroes.

Tally is a curious little turtle with a talent for getting into trouble.

Her best friend Ara is a wise and strong lobster. The most dangerous part of the ocean is about to shock Tally and Ara and make them realise that their underwater world isn't always charming. Will they be able to escape the danger? An engaging book that addresses the issue of plastic pollution and how it impacts our oceans and sea life. "When we protect our Planet we're protecting our future! Saving Tally makes children understand that they can do something - even if it's very small - to help take care of our oceans." Editor. Saving Tally is a fun and engaging adventure into environmental awareness published by Save The Planet Books. • Perfect for parents wanting to educate their kids about the environment, nature, and sea life. • A wonderful gift for teachers, librarians, and educators who are looking to teach about environmental protection, plastic pollution, and recycling. Saving Tally is a story that speaks directly to kids showing what plastic pollution can do on wildlife and sea creatures.

Art, Theory and Practice in the Anthropocene contributes to the growing literature on artistic responses to global climate change and its consequences. Designed to include multiple perspectives, it contains essays by thirteen art historians, art critics, curators, artists and educators, and offers different frameworks for talking about visual representation and the current environmental crisis. The anthology models a range of methodological approaches drawn from different disciplines, and contributes to an understanding of how artists and those writing about art construct narratives around the environment. The book is illustrated with examples of art by nearly thirty different contemporary artists.
