P.O.E.M.S. From the Heart By: Jacqueline E. Wilson P.O.E.M.S. (Poetry of Emotional Memories Suppressed) by Jaqueline Wilson is a wonderful collection of poetry inspired by the many painful, emotional, and joyful memories of events she has had to experience in her life. Though at times we may struggle to find hope and a light at the end of a dark tunnel, Jacqueline's works help us and remind us we are not alone. We may always find peace in troubled times.

Woza Albert! is one of the most popular and influential plays to have come out of the South African cultural struggle of the 1980s and a central work in the canon of South African theatre. Working with the idea of the Second Coming of Jesus Christ taking place in apartheid South Africa, the playwrights improvised a brilliant two-man show consisting of 26 vignettes, commenting on and satirising life under the apartheid regime. The play has

become one of the most anthologized and produced South African plays both in South Africa, and internationally and is studied widely in schools as well as universities. This Student Edition contains a commentary and notes by Temple Hauptfleisch, Emeritus Professor at Stellenbosch University, South Africa. METHUEN DRAMA STUDENT EDITIONS are expertly annotated texts of a wide range of plays from the modern and classic repertoires. A well as the complete text of the play itself, this volume contains: · A contextualised chronology of the play and the playwrights' lives and works · an introductory discussion of the social, political, cultural and economic context in which the play was originally conceived and created · a succinct overview of the creation processes followed and subsequent performance history of the piece · an analysis of, and commentary on, some of the major themes and specific issues addressed by the text · a bibliography of suggested primary and secondary materials.

A broad review of how nonprofits, businesses, and governments work together to tackle social problems Networks for Social Impact takes a systems approach to explain how and

when networks make a social impact. Michelle Shumate and Katherine R. Cooper argue that network design and management is not a one-size-fits-all formula. Instead, they show that the type of social issue, the mechanism for social impact, environment, and resources available each determine appropriate choices. Drawing on research from public administration, psychology, business, network science, social work, and communication, this book synthesizes what we know about how to best design and manage networks. It includes illustrations from thirty original case studies which describe groups of organizations addressing issues such as gender-based violence, educational outcomes, senior care, veterans' services, mental health and wellness, and climate change. Additionally, the volume examines critical issues that leaders address in creating and managing networks, including social issue analysis, network governance, securing and managing funding, dealing with power and conflict, using data effectively, and managing change. Each chapter includes tools for network leaders to use to handle these issues. This book is neither an overly idealistic, pro-collaboration account of the benefits of network approaches, nor is it a

critical view of these efforts. Instead, this clear and concise volume highlights the opportunities and challenges of networks. *Woza Albert!* Whitaker Distribution  
This book concerns itself with a particular class of expressions found in Tsonga, a Bantu language of the South Eastern Zone, spoken in the Republic of South Africa and Mozambique, by a community of two million people.

This seminal work by the renowned Russian folklorist presents his groundbreaking structural analysis of classic fairytales and their genres. One of the most influential works of 20th century literary criticism, Vladimir Propp's *Morphology of the Folk Tale* is essential reading for anyone interested in examining the structural characteristics of fairytales. Since it first appeared in English in 1958, this groundbreaking study has had a major impact on the work of folklorists, linguists, anthropologists, and literary critics. "Propp's work is seminal...[and], now that it is available in a new edition, should be even more valuable to folklorists who are directing their attention to the form of the folktale, especially those structural characteristics which are common to many entries coming from different cultures."—Choice

In this innovative study Dr Okpewho explores what he considers the essence of African traditions - myth - and examines its place in African life, literature and thought. Focusing on a number of tales from a selection of African countries, Dr Okpewho shows myth to be the basic imaginative resource from which the larger cultural values derive.

Words about Monsters Cambridge University Press

In this dramatic and powerful novel Antony Trew demonstrates, yet again, his mastery of the novel set against the backdrop of the sea. From beginning to end, *The White Schooner* is a compulsively readable story. For nearly a year Charles Black has been stalking his prey and now, on the lovely

island of Ibiza, he is very close to his victim. When the lean white schooner Snowgoose sails into the harbour, Black knows it is time to move in for the kill...

Perhaps you have a vague sense of personal purpose and have secretly thought, "I was born to do something significant in life" -- if you could just define it. Or, you may have all kinds of ideas of what you would like to do in life, but you rarely achieve them. In either case, you end up drained rather than completed, frustrated rather than fulfilled. You feel trapped, underemployed, and underutilized. You were not meant for a mundane or mediocre life. You do not exist just to earn a paycheck. The only thing that will satisfy you is what you were born to do. You were meant to accomplish something that no one else in the world can do. Here is a book of hope and challenge that you will read and re-read, one that is destined to become a classic, treasured by future generations. In *The Principles and Power of Vision*, Dr. Myles Munroe will inspire, motivate, and encourage you to start living the life you were created for as he reveals secrets to fulfillment that will greatly enrich your life.
