Bruno Latour's long term project is to compare the felicity and infelicity conditions of the different values dearest to the heart of those who have 'never been modern'. According to him, this is the only way to develop an anthropology of the Moderns. After his work on science, on technology and, more recently, on law, this book explores the truth conditions of religious speech acts. Even though there is no question that religion is one of the values that has been intensely cherished in the course of history, it's also clear that it has become immensely difficult to tune in to its highly specific mode of enunciation. Every effort to speak in the right key sounds awkward, reactionary, pious or simply empty. Hence the necessity of devising a way of writing that brings to the fore this elusive form of speech to render it audible again. In this highly original book, the author offers a completely different tack on the endless 'science and religion' conflict by protecting them both from the confusion with the notion of information. Like *The Making of Law*, this book is one more attempt at developing this 'inquiry on modes of existence' that provides an alternative definition of society.

The essays in this volume aim to contribute to the newly developing academic subject of biblical spirituality. It is prompted by the belief that, although the Christian tradition has always nurtured an emphasis on spirituality rooted in the Bible and its interpretation, few biblical scholars, until recently, have pursued their work by making connections with either this religious tradition or present-day interest in the broader phenomenon of spirituality. Spiritual interpretation overlaps with theological interpretation but is distinctive because of its focus on the wisdom of lived experience and practice. The essays therefore attempt, from within the context of the academy, responsible readings of Scripture that have as a major focus the study of how particular texts might contribute to a spirituality in which individual and communal flourishing is a major feature. The essays began as papers produced for an international symposium on the Bible and Spirituality in May 2012, hosted by the Centre for the Study of the Bible and Spirituality in the School of Humanities at the University of Gloucestershire.

In short: a man stuffed of the diplomas; but which did not have the chance to take a job based on his qualifications precisely; and that he could not: be content with being a mere agent monitoring; a

man whose his godmother was not stopping to her shenanigans; a man whose his poor mother kept echoing and thus suffer the effects of hers sufferings upon him; a man whose his company's Supervisory not stop bothering him little, because he was beginning to seniority; which cost dear to the boss, for premiums; a man with one, his little sisters didn't stop little insidiously and relentlessly engage them fighting butt; a man whose his womanish star is nymphomaniac hot could not stop to make him see all the colors, thus providing almost daily crispy shows scenes of households the various penguins; which were eager to see such shows and they even ask for again and again. And: stories of diplomas; to stories of godmother; to stories of a poor mother; to stories of a partnership Monitoring; stories in fighting butt; and stories a raunchy nymphomania shrew; it inevitably leads to something that looks more like for example: *Torments of JULIO, Descent From Poitvise Progeny* ; Which torments just have simply become the title of this monograph.

Do you want to go to heaven and be with Jesus Christ and all His glory when you die from this world on which we live? Or, be subjected to eternal damnation, the torments of unfathomable heat, with no hope? I hate to be so blunt, my friends; it's one or the other. There are many Christians who believe and teach that once you become a Christian in any of their variety of ways, you can never lose your inheritance of heaven no matter how ungodly you live, a license to sin, so to speak. Equally as deceptive, they claim that one cannot lose their salvation by departing from their once faith in Jesus, that they cannot just cancel their subscription to heaven. There are ways they defend this lunacy, but ultimately, it is to the destruction of many. What does the holiest of all books, the Holy Bible say, about this "license to sin"? Within the covers of this book you will see how the unconditional security-once saved-always saved advocates omit key words or entire verses and passages to justify their beliefs. Yes, they have their go-to verses that "prove" their position, but often at the peril of neglecting much of Scripture. This is an accurate, concise reading that looks at some of the errors of their ways from a strictly Biblical analysis, leaving emotions out of the context, trusting in Jesus' own words, and those of His closest disciples. This is a must read book which could make the difference between eternal life of happiness, joy, and peace, or the torments of eternal hell where "the worm never dies...." Hang on, lest you end up in that "to hell in a hand-basket" ride.

Jesus was confronted by the leadership within Jerusalem during the last week of his earthly ministry (Matthew 21-23). He confounded the elders, scribes (teachers), chief priests, Pharisees, and Sadducees. He pronounced eight (8) woes on the scribes and Pharisees and called them a brood of vipers. He told the leaders of Jerusalem that judgment for the righteous bloodshed from all those on earth would be cast upon that last generation in Judea living during the first century AD (Matthew 23:36; 24:34). It would include their killing the Messiah as they filled up the measure of their guilt (Matthew 23:32). Their temple had already been declared desolate (Matthew 23:38). That Great Tribulation was recorded from heaven's perspective on a scroll (Matthew 24:21). John was allowed to record his view of those scenes for us in chapters 6-11 of The Revelation of Jesus the Christ within Heaven. They're discussed here. They historically verified Jesus's pronouncements. The last seven were announced with trumpets to show Jesus used His power from the Throne of God (Revelation 11:17).

The final book of the Bible, Revelation prophesies the ultimate judgement of mankind in a series of allegorical visions, grisly images and numerological predictions. According to these, empires will fall, the "Beast" will be destroyed and Christ will rule a new Jerusalem. In September 2012, the feature-length documentary *Hellbound?* was released in theaters across North America. Joining a growing chorus of voices that were questioning the traditional view of hell as a place of eternal conscious torment, the film asked a handful of "burning" questions. Does hell exist? If so, who goes there, and why? More importantly, what do our views about hell say about us and our understanding of God? And how do our beliefs about these issues affect the kind of world we create, the kind of people we become? Five years later, the debate over hell is far from settled, but the landscape in which such questions are being asked has changed radically. Hence, filmmaker Kevin Miller decided it was time to go back to some of the people who appear in *Hellbound?* and others he met along the way to get their input on how the debate has shifted and how it's remained the same. The result is a plethora of voices offering all sorts of perspectives, some highly academic, some polemic, some intensely personal, and all bound to impact how readers think and feel about this issue.

This treatise was originally penned by Nicholas Chewney in response to a Socinian tract written by

Samuel Richardson which denied hell. Chewney takes up the biblical and Reformed position on hell as Jesus Christ taught it in Scripture. The treatise is divided into four sections: he shows that there is such a place as hell, what this place is, and where it is. He concludes with a final section on application. He does not refute Richardson as a Christian polemic would point by point. Chewney confesses that a polemic was his first line of thinking. However, he wrote this tract to simply allow Scripture to teach the church the biblical doctrine of hell. As a result, his purpose in writing this treatise on hell was for the glory of God, both in his mercy and justice, for the comfort of all poor, believing souls, and for the terror of all wicked and ungodly wretches. This is not a scan or facsimile, has been updated in modern English for easy reading and has an active table of contents for electronic versions.

*The Practical Works of the Late Reverend and Pious Mr. Richard Baxter ... With a Preface; Giving Some Account of the Author, Etc*

Luther's 95 Theses begin and end with the concept of suffering, and the question of why a benevolent God allows his creations to suffer remains one of the central issues of religious thought. In order to chart the processes by which religious discourse relating to pain and suffering became marginalized during the period from the Renaissance to the end of the seventeenth century, this book examines a number of works on the subject translated into English from (mainly) Spanish and Italian. Through such an investigation, it is possible to see how the translators and editors of such works demonstrate, in their prefaces and comments as well as in their fidelity or otherwise to the original text, an awareness that attitudes in England are different from those in Catholic countries. Furthermore, by comparing these translations with the discourse of native English writers of the period, a number of conclusions can be drawn regarding the ways in which Protestant England moved away from pre-Reformation attitudes of suffering and evolved separately from the Catholic culture which continued to hold sway in the south of Europe. The central conclusion is that once the theological justifications for undergoing, inflicting, or witnessing pain and suffering have been removed, discourses of pain largely cease to have a legitimate context and any kind of fascination with pain comes to seem perverse, if not perverted. The author observes an increasing sense of discomfort throughout the seventeenth century with texts which betray such fascination. Combining elements of theology, literature and history, this book provides a fascinating perspective on one of the key conundrums of early modern religious history.
